Dear Patient,

San Diego County Cardiology is dedicated to providing you with the highest quality care, and we are constantly seeking ways to enhance our services.

We are pleased to inform you about a new technology we are implementing called an Artificial Intelligence (AI) Scribe. This AI tool assists physicians during patient encounters by generating clinical notes based on patient conversations. The AI Scribe allows your physician to focus more on patient care and less on computer documentation.

****What is an AI Scribe? ****

An AI Scribe listens to the conversation during your medical visit and generates a written summary or "note" based on that discussion. This note is then reviewed and approved by your physician.

****How will this affect you? ****

The AI Scribe does not interact with you directly. It simply listens to the conversation and creates a summary, enabling your physician to concentrate more on your visit and less on taking notes.

****Data Privacy and Confidentiality****

San Diego County Cardiology assures you that your privacy is our utmost priority. The AI Scribe tool strictly adheres to HIPAA rules and security regulations.

****Your Consent****

Your participation in the use of AI Scribe technology is completely voluntary. If you agree to its use during your visits, please sign and date the form below. If you have any questions, please feel free to discuss them with us. You may withdraw this consent at any time.

I, _____, consent to the use of AI Scribe tools during all my appointments with San Diego County Cardiology providers at this clinic.

Thank you for your understanding and cooperation.

Sincerely,

San Diego County Cardiology
